Clark Forklift

Presently, there are no less than 350,000 Clark lift trucks performing globally, and more than 250,000 in use in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, duel fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 particular items built for 20 unique designs of lift trucks and automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts requirements supplied by Clark Totalift.

Clark's extraordinary Parts Distribution Centers are conveniently situated in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a very amazing global support network. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering safety features such as the worker restraint system. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark's relentless effort to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 â?? Clark, is the first lift truck producer across the globe to be certified with the globally accepted quality standard ISO 9001 for each and every one of their manufacturing facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental restrictions, thus placing them in a dominant market position.

Lean Manufacturing

Clark has selected the structure of "Lean Production" at all of its assembly facilities for the reason that this method is extremely economical and allows for minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for production plant stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Engine Design

Clarkâ??s product engineers and suppliers communicate together to develop the effectiveness and brilliance of their products while minimizing expenses. The new value engineering program combines progressive product development and provides improved consumer support and service within the industry.
